

## IMPLEMENTATION OF ISO 14021:2016 STANDARD FOR THE SUSTAINABILITY ECOLABEL DEVELOPED BY NAECO S.L.

ITENE (Instituto Tecnológico del Embalaje, Transporte y Logística) hereby states that company NAECO S.L. has developed an ecolabel with the aim to communicate to their clients the different environmental aspects with regards to their products.

ITENE, as an independent third party, has performed an evaluation of the ecolabel and all environmental claims included, with the purpose to assess the conformity according to the criteria established in **ISO 14021:2016 standard "Environmental labels and declarations – Self-declared environmental claims (Type II environmental labelling)"**.

As a conclusion of this study, it has been determined that **NAECO's ecolabel complies with all aspects and requirements of ISO 14021:2016 standard** concerning the general requirements on the assessment and verification of environmental claims, as well as the specific requirements to the claims of:

- ✓ **Design for disassembly**
- ✓ **Recyclable**
- ✓ **Recycled content**
