

# naeco

Together with you

# TOGETHER WE CAN

BUILD A BETTER WORLD

If you are like us, if you have ambition to change things and you believe that, all together, it is possible. If you know that sustainability is the future and that we are owners of our actions, join our **Naeco Loves You** initiative!

## CORPORATE SOCIAL RESPONSIBILITY

### REDUCE

Know how much **CO<sub>2</sub>** equivalent you can reduce in your logistic activity with the use of our plastic pallets, crates and containers. **We help you to reduce your Carbon Footprint!**

### REFOREST

**With your help**, we will plant new forests that will contribute to absorb the **CO<sub>2</sub>** in our atmosphere. Join our challenge! **For every 35 tons of plastic** we manage to recycle, **we will plant 1 native and protected tree.**

### REWARDS

Buying our products, you are contributing to **the direct recycling** of plastic packagings. Discover with us your exact contribution with the environment and include this action in **your CSR plan!**

### REWIND

Thanks to our customer's awareness with **Zero Waste**, our products go back to their origin at the end of their useful life, preventing them from becoming new plastic waste. Sell us the plastic products you no longer use and join a true Circular Economy!

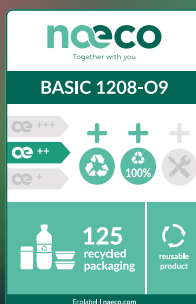

## DISCOVER WHAT WE HAVE ACHIEVED TOGETHER!

Thanks to **your collaboration** and the development of **environmentally** responsible actions, we are very close to achieve our goal: leave **a better world** for future generations.

**DO YOU WANT TO KNOW  
WHAT WE HAVE ACHIEVED  
SO FAR WITH YOUR HELP?**

## OUR SUSTAINABILITY ECOLABEL

↑ ISO 14021:2016

We are very proud to be the first manufacturer in our sector to launch the first **sustainability classification** for all our products.

Look out our **exclusive ecolabel** and know your contribution to the environment.

**DO YOU WANT  
TO KNOW MORE?**

Join us for a better world and always look for the **Nature Friendly** seal!

**LEGAL NOTICE:** Thanks to the intrinsic features of the materials, the dimensions and weight of the products can present certain tolerances. Dimensional tolerances in accordance with DIN ISO 2768-V. Weight tolerances: +/- 4%. The values indicated are guidelines and are based both on practical experience and on ISO trials with a uniformly distributed standard load, apportioned homogeneously and over a specific length of time at room temperature (20°C [68°F]). Different load conditions produce different value, which must be checked following client request. Any deterioration, breakage or modification of the product can vary these results. Naeco reserves the right to modify any information indicated herein with no prior notice.
